

Daniel Balaceanu, Product Manager Microsoft Solutions, TotalSoft

He started the activity at TotalSoft as part of Charisma Department where he held various important positions in the development of this product. Starting with 2007, due to its vast experience in Microsoft technologies, he set up a specialized department in the development and integration of Microsoft solutions with the business applications developed by TotalSoft.

Today, he leads a team of 25 people that achieved extraordinary projects based on Microsoft technologies, both in Romania and in other international markets.
